5. **Other:** At the initiative and Support from MI, Ministry of Health: Department of Food Technology and Quality Control /Ministry of Agriculture and the Flour Mills Association, have signed a MOU to start programs to introduce mandatory fortification of Wheat flour in Nepal.

What else do you need? Is there any specific information that would be useful?

We are looking for more information relating to the mandatory legislation documents of some countries, which have recently introduced such measures. Also sharing of experiences in the ways and means of effective monitoring of the programs adopted by various countries will also be of a big help.
